PRESS RELEASE

New Delhi | 9 October 2026

Over 100 Lawyers Extend Support to LAFC's Free Legal Aid Initiative for Peaceful Protesters. The Lawyers Association for Constitution (LAFC) announces that over 100 lawyers associated with the organisation, practising before the Supreme Court, High Courts and District Courts, have extended their support to provide free legal assistance to peaceful protesters facing injustice or wrongful action by the administration or police.

The network includes senior advocates practising before the Supreme Court and High Courts, alongside lawyers committed to protecting constitutional rights and ensuring access to justice.

Through this initiative, LAFC will offer free legal aid and support to peaceful protesters whose constitutional rights have been violated, including assistance in seeking appropriate legal remedies against wrongful police or administrative action.

"Peaceful protesters should not be left without legal support when they face injustice. Our collective effort is to ensure that access to legal assistance does not depend on a person's financial means," LAFC stated.

LAFC calls upon the authorities to respect constitutional freedoms and ensure that those participating in peaceful protests are treated with dignity and in accordance with law.

The association reaffirms its commitment to defending constitutional rights through peaceful, lawful and democratic means.
